**More**

**Moderator:**

- Andrei Bugrov, Deputy Chief Executive Officer, member of the Board of INTERROS
- Maurice Button, Chief Executive Officer of City & Financial Group, London

**Topics to be discussed:**

- Need for creation of a global financial regulator or retaining of free market
- Global imbalances and possibilities of their smoothing within the limits of available national finance regulation institutions
- Are the adopted bank regulatory standards BASEL III necessary and sufficient for resolving the problems of international finance regulation
- The feasibility of creation of a global financial regulator on the basis of IMF
- Search for a compromise in defining the authorities to be in charge of global finance regulation, supervision at national and supranational levels
- Can we rely on finance regulation experience within the EU framework with the view to determine the powers and authorities of the central global financial regulator?
• Key areas of global supervision and regulation: banking and insurance supervision, equity market, supervision over the international rating agencies, etc.
• The possibility of creation of a global financial regulator on a short-term or mid-term horizon
• International financial centres in terms of global financial supervision and regulation
